## ASNWER

**Fill in** your details, **complete** this test, **return** this question paper AND **upload** your C# solution to uLearn

### Your tasks:

In Visual Studio 2026 Community Edition, create a Windows Forms App (.NET Framework) project named [**YourMatricNumber**].

The Admiral Homestay main form should closely resemble Figure 1:  
(you can choose any appropriate image)

Admiral Homestay : Main Form

ADMIRAL  
HOMESTAY

Name  ☐ Non-Malaysian

Address

Contact Number

Car Plate Number

Next

*Figure 1: Admiral Homestay main form*

Details for name, address and contact number must be filled out before button Next is clicked (Car plate number is optional); otherwise, a reminder message appears as shown in Figure 2:

Admiral Homestay : Main Form

ADMIRAL  
HOMESTAY

Name  Arlene ☐ Non-Malaysian

Address

Contact

Car Plate Number

Next

Error

Please Insert Address

OK

*Figure 2: Reminder message to enter name, address and contact number.*

If the Non-Malaysian checkbox is checked, the label and text boxes for Nationality and Passport appear.

Similarly, details for nationality and passport must be filled before the Next button can be clicked; otherwise, a reminding message appears as shown in Figure 3:

The screenshot shows the 'Admiral Homestay : Main Form' window. On the left is a logo with 'ADMIRAL' in white and 'HOMESTAY' in yellow on a dark blue background. The form fields are: Name (Arlene), Address (Melbourne), Contact Number (6 13 776 9003), and Car Plate Number (empty). A 'Non-Malaysian' checkbox is checked. To the right, 'Nationality' and 'Passport' fields are present but empty. An 'Error' dialog box is open, displaying 'Please Insert Nationality' and an 'OK' button. A 'Next' button is at the bottom right.

*Figure 3: Reminder message to enter nationality and passport number.*

Figure 4: shows an example of a completed reservation form.

The screenshot shows the same 'Admiral Homestay : Main Form' window, but now the 'Nationality' field is filled with 'Australia' and the 'Passport' field is filled with 'PB0689912'. The 'Error' dialog box is no longer present. The 'Next' button remains at the bottom right.

*Figure 4 Example of a completed reservation form*

When the Next button is clicked, another form [FormReservation] is displayed with all the customer's details as shown in Figure 5:

Customer's details from previous form.

Customers need to select Check-in and Check-out dates.

Admiral Homestay : Rental

Arlene  
Melbourne  
6 13 776 9003  
Australia

Date Start Monday , 27 April , 2026

Date Return Thursday , 30 April , 2026

4 days

Daily Rental Rate, RM 550.00

Total Amount, RM RM2,200.00

< Previous Homestay 2 Next >

Figure 5 Form Reservation with homestay picture, name and daily rate

Buttons Previous and Next when clicked, shows :  
A homestay picture  
A homestay name  
A homestay daily rate

Admiral Homestay : Rental

Arlene  
Melbourne  
6 13 776 9003  
Australia

Date Start Monday , 27 April , 2026

Date Return Thursday , 30 April , 2026

4 days

Daily Rental Rate, RM 550.00

Total Amount, RM RM2,200.00

< Previous Homestay 2 Next >

Finally, when the button Total Amount, RM is clicked, the numbers of days is displayed with the total amount.

Total amount = room rate \* days

## Submission guide:

Normally, your C# folders and files are in:

**C: Users > [username] > source > repos > [project folder]**

## To submit to uLearn\*:
